Please do not park your extra vehicles in guest parking for permanent parking spot. These spots are for residents/and or guests to park and are on a first come basis. They cannot be parked in those spots for more than two consecutive weeks at a time.

The commercial parking is for residents to park your recreational vehicles or extra cars in these spots but they **MUST** be registered with the office. We need a copy of the registration and you will be assigned a parking sticker. If a sticker is not on the vehicle it can be towed at any time.

Thank You
